Dear Hans.

We rec'd you ll Feb letter and we are happy that we heard from you again. Both your letter and Piszi's(sic) arrived simultaneously and thus we heard from two sources about Buci's betrothal. We congratulate both of them.

Because of the great cold wave, Piszi did not come; he writes that this month is his mother's birthday and about the 15 or 16th he will come here. I hope the weather will be better because we have been frozen long enought. How many logs I have put in the stove... Ida and I wear everything we have and still my toes and hands a frostbitten. I never venture out without gloves. Thanks for the shoes, they are lighter than boots and I can wear two pairs of stockings with them (more about the cold weather... Ida cant go to church and its tough enough for me to bet them... I have plenty of hard work... perhaps I can go to the baths twice a week if I'm lucky for my rheumatism.....

After I pay for staples etc insurnaces etc I have very little money left, but they do not ask me for much now. I'd like to fix the roof and I could pay for it if I sold the wagon which I do not need now. I can hardly sait to meet Piszi so there will be some slight change in our monotonous life.

Thank the Lord your health is good. I couldn't go to Maraget's grave on the anniversary of her fixxxx death, because of the weather. Perhaps I can go later as a promised grandmother.

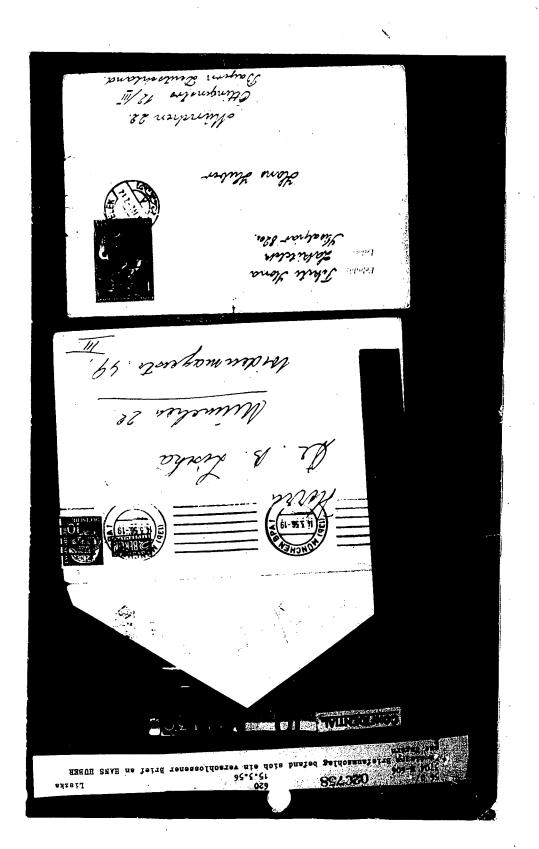

Tassy Laci is also engaged, His parents are no happy si ce he is 23 and is tied down. He is a chemist.

I wrote to Buci and I'm sending him s photograph so he will know us. I'm enclosing some stamps for Uncle JUNG. We send greetings to Jozsi Karolat.

Greetings

Ila & Ida
